

We provide personalized care to help patients with mental health conditions, such as depression, anxiety, mood disorders and bipolar disorder.

The following programs are now accepting new patients:

- **Mental Health Intensive Outpatient Treatment and Crisis Services**

If you need more than a weekly therapy session to help manage your mental health symptoms, these programs may be right for you.

Both programs are outpatient so you can stay active with your family and in your community. They may include individual therapy, group therapy, family therapy, expressive/art therapy, psychiatry and other services.

In March 2021, both programs will be available to teens aged 13 to 18.

Additional Behavioral Health Services include:

Evaluations for outpatient mental health treatment

Psychological testing services for children

Outpatient individual, group and family therapy

Outpatient psychiatry
